(a) The Unitholders whose names are listed on the Unitholder register on the date that the value of the debt instrument or claim is recorded by the Management Company as zero shall be entitled to the net income from the other assets received as

substitute for debt payment, except where the Management Company has already complied with clause 16.1 (1) (c).

- (b) The Management Company shall not take into account assets received as substitute for debt repayment and the net income deriving from such assets when calculating the net asset value of the Mutual Fund and it shall dispose of such assets at the first occasion taking into account the benefits of the Unitholders, except where the Unitholders who are entitled to the net income deriving from such assets agree to accept such assets as substitute for debt payment. However, the Management Company shall act in accordance with rules and procedures prescribed by the Association of Investment Management Companies and with the approval of the Office of the SEC in this regard.

During the period that the Management Company is unable to dispose of assets received as substitute for debt payment, the Management Company may seek to earn benefits from such assets. In the event that there are expenses incurred as a result of such asset management, the Management Company shall pay for these expenses out of its own reserves or the income or other benefit derived from the management of such asset.

- (c) Should there be net income derived from assets received as substitute for debt payment, the Management Company shall pay such net income to the relevant Unitholders on a pro rata basis within forty-five (45) days from the date such net income was received, and shall notify the Office of the SEC of the details of the payment within fifteen (15) business days from the payment date, except where the due date has otherwise been extended by the Office of the SEC.
- (d) In the event that Management Company has recorded the value of a debt instrument or claim as zero, where it appears later that such debt instrument or claim is paid in the form of money to the Mutual Fund, the Management Company shall comply with the statement specified in clause 16.1 (1) (c) mutatis mutandis.
- (2) In the event that the Management Company has **not** recorded the value of the debt instrument or claim as zero:
- (a) Prior to the acceptance of other assets other than collateral as substitute for debt payment, the Management Company shall need the approval of the Unitholders in the form of a resolution passed by a majority vote of Unitholders representing more than a half of the total outstanding investment units of the Scheme, or receive the approval of the Trustee after the Trustee has conducted a review and given its opinion together with reasons why the acceptance of such assets at the time in

question is more beneficial to the Unitholders than the holding or possessing of a debt instrument or claim.

In requesting a resolution or an approval from the Unitholders or the Trustee respectively under the paragraph above, the Management Company shall specify to the Unitholders or the Trustee (as the case may be) the details regarding the assets to be acquired as substitute for debt payment, the value of the assets, the estimated expenses associated with accepting such assets as debt repayment together with the reasons and necessity of accepting such assets as debt payment.

- (b) Once it has received assets as debt repayment, the Management Company shall determine the price of such assets and take them into account when calculating the net asset value of the Mutual Fund in accordance with the rules and procedures prescribed by the Association of Investment Management Companies and with the approval of the Office of SEC. and the Management Company shall take the following actions in respect of such assets:
- (i) In case of an asset considered eligible for the Mutual Fund, the Management Company may keep holding such asset for the Mutual Fund;
 - (ii) In the case of a non-eligible asset, the Management Company shall dispose of the asset at the first opportunity taking into account the benefits to the Unitholders. During the period that the Management Company is unable to dispose of such asset, the Management Company may seek to earn benefits from it;
 - (iii) In case there are expenses incurred from managing such assets, the Management Company shall pay for those expenses out of the assets of the Mutual Fund.
- (3) In the event that there are grounds to believe that an issuer of a debt instrument held by the Fund or another type of debtor of the Fund may be unable to pay the debt they owe, the Management Company shall take action so as to ensure that all Unitholders whose names are listed on the Unitholder register on the date it is believed that the issuer of debt instrument or the debtor becomes unable to pay the debt are entitled to the net income derived from any assets received as substitute for debt payment. In taking such action, the Management Company shall not take into account such debt instrument or debt claim when calculating the net asset value of the Mutual Fund.
- (4) In paying the net income in the proportions set out under clause 16.1.3, should the Management Company be able to show that it is not financially reasonable to make such a payment from the net income derived from any assets received as substitute for debt repayment in cash due to the expenses incurred in doing so, the Management

Company may delay making such payment until the first occasion when the payment will cover the expenses involved. However, in the case where all assets received as substitute for debt payment have been disposed of and the net income received from the sale does not cover the expense of making payment to the Unitholders, the Management Company may deposit such net income with the net asset value of the Fund.

In respect of any payment made in cash or other assets to Unitholders, the Management Company shall only make payment to the Unitholders whose names are listed in the Unitholder register at the time of making payment.

17. The Investment Unit Register, Investment Unit Transfers and Limitations on Transfers

17.1 The Management Company is responsible for preparing the Unitholder's register in accordance with the rules issued under Section 125 (5) of the Securities and Exchange Act B.E. 2535. It shall be presumed that the Unitholders' register is accurate. Any payment made in cash or other assets to the Unitholders, and the granting of rights to or the limitation of rights of the Unitholders whose names are listed in the Unitholder register book according to the terms of these Commitments or the law, shall be considered to have been carried out by the Management Company according to its powers and duties.

17.2 The Management Company or the Registrar shall refuse the registration, transfer and pledge of investment units in the following cases:

- (1) In the event that transfer of investment units results in a person holding investment units in excess of the limits on the holding of investment units in accordance with the Notification of the Capital Market Supervisory Board regarding Restrictions on the Holdings of Investment Units in Mutual Funds and Management Companies.
- (2) In the case where there is a transfer to, or pledge of investment units in, a Retirement Mutual Fund or Long Term Equity Fund

18. Limitations on the Holding of Investment Units

Any person or persons of the same group shall not hold more than one third of the total outstanding investment units, unless that holding falls under any exclusion prescribed in the Notification of the Capital Market Supervisory Board entitled "Rules of Limitation of the Holding of Investment Units in a Mutual Fund and the Duties of the Management Company".

19. Rules and Procedures on Requesting a Unitholders' Resolution

- 19.1 Where the Fund Scheme or the law so requires, any action on the part of the Management Company shall be approved by the passing of a resolution of the Unitholders. In the event that the Management Company has taken action according to a resolution of the Unitholders, it shall be considered that all Unitholders have agreed with such action and are bound thereto.
- 19.2 Any resolution of Unitholders to engage in any action which is contrary to the law shall be deemed void.
- 19.3 In respect of a request for a resolution to amend these Commitments on a matter that will have a material effect on the Unitholders' rights, such resolution is required to be passed by a majority vote of Unitholders, such vote representing more than half of the total outstanding investment units of the Fund. Unless the Fund has different classes of investment units, the resolution shall be passed by Unitholders in accordance with the following rules:
- (1) In the event that a resolution has a material impact on all Unitholders but each class of investment unit will be affected differently, the resolution shall be passed by a majority vote of the Unitholders of the affected classes with such vote accounting for more than half of the number of outstanding investment units of the affected classes.
 - (2) In the event that a resolution has a material impact on the interests of Unitholders, the resolution shall be passed by a majority vote of the Unitholders with such vote accounting for more than half of the number of outstanding investment units of each class of investment unit.
 - (3) In the event that a resolution has a material impact on Unitholders holding only one of the investment unit classes, the resolution shall be passed by a majority vote of the Unitholders holding such class of investment unit with such vote accounting for more than half of the total number of the affected Investment units.

If the Management Company wants to amend the Scheme to benefit the Unitholders or to comply with the regulations of the SEC, the Management Company can submit an application together with supporting documentation to the SEC. Provided the application and the supporting documents are accurate, the Office of the SEC is deemed to have approved the amendment to the Scheme on receipt of the application.

In the case of a mutual fund with more than one class of investor, if the resolution of the Unitholders is passed by a majority vote of the Unitholders of not more than 55% of the affected class, the Management Company shall submit documents and evidence regarding the request for the resolution of Unitholders and vote counting to the Trustee for their approval of the result.

In the event that an amendment of the Fund Scheme may not be carried out pursuant to a resolution passed by a majority vote of Unitholders due to the following reasons, the Management Company may request the Office of the SEC's approval to carry out the amendment in accordance with the guidelines as specified by the Office of the SEC:

- (1) There are restrictions on the counting of votes of the Unitholders according to the Notification of the Capital Market Supervisory Board on Rules of Limitation on the Holding of Investment Units in Mutual Funds and the Duties of the Management Company;
- (2) the votes of unitholders cannot be counted because they constitute the votes of unitholders in other mutual funds that the Management Company is managing according to the Office of the SEC rules and regulations.

In the event that a proposed amendment to the Fund Scheme or management procedures is not approved by a resolution passed by a majority vote of the Unitholders, or such vote does not account for more than half of the total outstanding investment units of the Fund, such amendment must be approved by the Office of the SEC.

In respect of an amendment to the Fund Scheme or management procedures carried out pursuant to a resolution of Unitholders, the Management Company shall notify the Office of the SEC within fifteen (15) days from the date on which the resolution of the Unitholders has been passed.

The Management Company shall inform all Unitholders of an amendment to the Fund Scheme or management procedures and publish a notice in at least one daily newspaper within fifteen (15) days from the date of receipt of the Office of the SEC's approval or the date on which the resolution of the Unitholders has been passed (as the case may be).

The management company may proceed to increase the registered capital of the Fund and such an increase is deemed to be approved by the Unitholders. Once the Office of the SEC has registered the Fund's increased capital, the management company will notify the Unitholders by posting an announcement in at least one daily newspaper within fifteen (15) days from the date the increase in capital is registered.
